## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Species A (claims 9-11) in the reply filed on 7/18/2005 is acknowledged. However, upon reconsideration, the Examiner apologizes for have overlooked the following patentably distinct species of the claimed invention, as such the Examiner rewrites the species election as follows:

I. Outer layer

Please elect one species as set forth in claims 2 and 3.

II. Tie layer structure

(1) a single layer, as set forth in claims 1, 7, 8 and 12;

If a single layer structure is elected, please also elect one species of material as set forth in claims 5 and 6;

(2) a multilaminate layer, as set forth in claims 13 and 15;

III. Reservoir

(1) as set forth in claims 1 and 13;

(2) as set forth in claims 7, 12, 14 and 15;

(3) as set forth in claim 8;

IV. Release controlling means

(1) outer layer, as set forth in claims 9-11;

(2) base layer, as set forth in claims 12 and 17.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from each categories I-IV for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there is no generic claim.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
